### **Fiji's Guests Give Back**

More than 800 guests staying at Fiji's Outrigger's Coral Coast took time out from their holiday to assist in the construction of two new classrooms at the Conua Primary School. The classrooms are part of a community tourism project started seven years ago, that has seen Outrigger Coral Coast contribute to a new library, computer lab, a large meeting bure and a new kindergarten. The hotel's guests worked on the project under the direction of the resort's engineering team doing whatever was required at the time - mixing cement, laying bricks or painting and also contributed FJD100 for adults and FJD60 for children, of which 70% went into a building fund for purchase of materials.
