

Coral Cocktails

The month of Jun brings with it the start of World Oceans Month, a period which calls attention to the vital role that the sea plays in people's everyday lives.

Outrigger Resorts is marking the month with a 'Living Coral' cocktail programme, with proceeds of the sales going to Mamanuca Environment Society.

Each property is featuring a concoction, from the rum-based Patrick Starr at Outrigger Reef Waikiki Beach Resort to the Coral Pink Sands Margarita at Outrigger Guam Beach Resort and Outrigger Fiji Beach Resort's gin and hibiscus My Coral Coast Cocktail.

Outrigger is also encouraging guests to participate in conservation experiences that help preserve and protect the ocean's coral through its OZONE initiative, from planting coral nurseries at Outrigger Resorts in Fiji to snorkelling with a resident marine biologist at Outrigger in the Maldives.
